The Mouse of Commons. About the same hour on Thursday, according to the clock, that Governor Trutch was engaged in proroguing the local assembly of this Province, Lord Lisgar, the Governor-General of the Dominion of Canada, was making his Halifax, Bermuda, a St. Thomas opening speech to her Majesty's faithful R. S. P. Company-South m to mone of Canada, in the good city of Ottawa. As this Province now constitutes an integral part of the Dominion, the people of British Columbia, in common with those of the other Provinces comdirect interest in the legislation about to take place in the Dominion Parliament. Matters of very great importance indeed to British Columbia will, during the session just opened, engage the attention interest in its proceedings such as has never before been felt in this Province Foremost on the list will be the reports of engineers as to the surveys that have to imitate the policy in this country "belongs to the darkest age of economic ignorance." Pacific Railway. On both sides of the great chain of mountains intervening between the castern and western between the eastern and western Provinces of the Dominion, engineering parties have been diligently making the parties have been diligently making the william Nicol Burns was the second. He necessary surveys, and no doubt the re-sult of their labors to the latest possible date will be made known at an early period of the session. The question as whether it is practicable to build the road is not what the Government engineers are called upon to determine, for upon that point there has long been not the slightest doubt whatever; the main question to be determined by the several surveys now being made, is as to which of the numerous passes in the mountains present the least engineering difficulties to be evercome in order to carry the railway through to the Pacific. The latest unofficial report is to the effect chosen, which goes to confirm the views expressed by this journal several months struction of Dominion buildings in British Columbia -- Post Offices, Court Houses, and Gaols where needed, a Provincial Pen itentiar, Marine Hospitals, Light-houses along the coast, etc,— will have to be provided for in the Estimates this session, in all of which we shall have a direct local interest; and in addition to this should any afterations in the Customs Tariff be the rest of the Dominion. The fact that in an eminent degree the purity, fine aroma, we have nine of our own citizens in the Legislative Chambers at Ottawa, representing the wants and desires of the people of British Columbia, and taking art in the debates, will lend still greater importance to what transpires in what may be called the national councils of the Dominion. Heretofore the political sympathies of British Columbians were limited to the narrow compass of their own Province; now they extend o er the entire Dominion, embracing a larger area of territory than is comprised in all the States and Territories of the American Union combined. This shows that the world is moving, and that British Columbians are moving with the world The actions of Nova Scotians or New Brenawickers in the Dominion Parliament may seriously affect for good or ill the nelfare and prosperity of this Province, and vice versa as regards the acts of our representatives towards those Provinces Although so widely separated geographically, there exists an identity of interest between the Provinces which we sincerely hope may grow with their growth and strengthen with their strength, until this young Dominion shall be consolidated into one of the most populous and powerful of the nations of the earth. In Opposition in the Dominion Legislature to the present Cabinet, and that the terms granted to British Columbia when she entered into the Confederacy are to be made the subject of a combined and unscrupulous effort to upset that Cabinet, and if possible, delay the fulfilment of those terms, if not defeat them altogether will give rise to no little anxiety here as to what course the Commons will pursue when those matters relating to British Columbian effairs come up for consideration. It is hoped by the Oppo sition that the recent change of Adminis tration in the Province of Ontario will tend to weaken the Ministerial forces in the Commons, and that the persistent efforts of the Torontal Globe and kindred journals to poison the public mind relative to the Union with British Columbia, combined 3 Pall Mall, East, London, 66 Upper Sackville Street, Dublin. Macdonald in reference to those articles in the Treaty of Washington affecting the Canadian fisheries and the navigation of the St. Lawrence and St. John Rivers, will have worked such a change in public sent in toward the Administration of which Sir John A. Macdonald is the head, as will most likely result in the defeat of that Cabinet before the session closes. We do not apprehend any immediate dange to the present Dominion Cabinet growing out of those questions to which we have referred, for the reason that our representatives will be on the spot not only to defend the policy of the Government as regards its dealings with British Columbia, but to give the weight of their andivided support in defence of its general policy, which has placed the finances of the Dominion in a condition of unexampled appropriate and notwithstanding the pled prosperity, and notwithstanding the millions of dellars expended in railroad and other gigantic public enterprises,

my neglect on the part of our Carriers to deliver the STANDARD at the proper time and place will be promptly remedied on application at the Publication Office, next door to the Bank of British Columbia, Government may well chullenge the utmost efforts of the Opposition to defeat them.

In addition to these subsidies, the British Government pays four other companies the postage on all the matter they carry to the rate of sixty cents an ounce on letters, six cents a pound on newspapers, and ten cents a pound on books—which certainly ought to be a fair rate for freight. Mr. Cole's total is of that Legislature, that will create an slightly different from ours, which is a consequence of his reckoning the pound sterling at \$4 84, while we have calculated it at five dollars. TES N. P. R. R. IN ENGLAND .- A late number of the London Post contained the following favorable mention of the Northern Pacific Railway: The whole area of England and nd is about 57,000,000 acres, and that f England, Scotland and Ireland is about 75.000.000; so that the territory given by the Railway Company exceeds that of Great Britain by 3,000,000 of acres, and is only of the whole United Kingdom. Our interest in this particular American enterprise arises up to us a portion of our own dominions which have hitherto been almost inaccessible. In short, from the eastern to the western terminus of the line the route of this road traverses a region most desirable for settlement and rich in resources, whose development will be almost as profitable to British as to American interests.

FOR NEW WESTMINSTER .- The steamer Enterprise, Capt. Swanson, left at 10:30 o'clock, yesterday morning, for New Westminster, with 40 passengers, 70 tons of freight, including two large waggons, the Cariboo mails, and Barnard's express. Among the passengers we observed Mr. O'Reilly, Mr. J. Robinson, M. P. P., and Mrs. Robinson, Mr J. C. Hughes, M. P. P., and Mrs. Hughes, Mr. Semlin, M. P. P., Mr. Armstrong, M. P. P., Mesers. ATTEMPT AT DEADLY ASSAULT .- Two Greek Ashermen of Johnson street were wrangling in front of a store on that street on yesterday evening; in the midst of their difficulty one of the men, a tall powerful fellow, seized the other by the throat and drew a large sheath knife, at the same time saying, "I will kill you." Lackily the Inspector of Police happened to come by at the moment and rescued the knife was drunk; he was taken to prison, but only by the united efforts of a considera-ble police force.

A succession has been made to us and which we would recommend for the consideration of those interested. The Fire Department, the only volunteer organization in the Revely, sailed for Honolulu yesterday mornBefore the close of the Ontario Legislative city now, and bearing a semi-military char-ing. preceded by a musical band. Would it not be well that the blue jackets, with any Asso-ciation which may resolve to be present officially, or even the Government Deputation be asked to join the procession and add eclat to the occasion so importantly and so inter-esting as the present?

ATTEMPTED SUICIDE .- Among the scraps of recent news we have from the disputed island, is that of an attempt at suicide by a Serjeant of Marines, of the British Camp, San Juan, who it appears was reduced in the rank, com-plaint having been lodged against him for some breach or other of good behavior, while in a state of intoxication. The man felt so dejected and disheartened under the circum-stances, that he attempted to kill himself, by cutting his throat. He was living at latest

The coal miners of Nanaimo held a meeting on Saturday evening last, in reference to the appointment of a new doctor for the coal company, the present doctor not giving satisfaction. The miners claim that they have the right to choose their own doctor. The meeting was largely attended, and, at a late bour, was adjourned until to-night. The steamer Goliah, with the ship David Hoadley n tow, arrived at Nanaimo from Port Townsend on Wednesday night; the ship is to load coal for San Francisco.
